Needlepoint - The Diary Of Robert Reverie
(cd and vinyl)

What do you get if you combine Robert Wyatt and Syd Barret's melodies with the very best from the 70's fusion and the playful feeling of early Weather Report? Put in some grooves of Return to Forever, and finally add a slice of the classy and thoughtful songwriting of progrock legends like Caravan and Camel? Well, you might not get the latest Needlepoint album, but at least we're close.

A lot of these references were explored on the band's previous album "Aimless Mary", but on "The Diary of Robert Reverie" they embrace them even more - it's effortless, enthusiastic and playful. Olaf Olsen's drums are even more present, and dynamically swirls up the songs, while David Wallumrød plays the keys with an organic nerve as if the sound came from the earth itself. Everything is supervised by producer and bassplayer Nikolai Hængsle, who is not afraid to turn on the fuzz when needed not unlike Soft Machine, still there's melody in each bass line. At the same time maestro and songwriter Bjørn Klakegg's guitar floats all over it and keeps it together ranging from soft jazzheat to wild rock heroism.

Many of the lyrics are inspired by the environment around Bjørns place in Sweden, and the main character Robert, a dreamy individual, is also inspired by the nice, sometimes strange people in the small village. Bjørns older brother Rune Klakegg has illustrated the cover.

7 Days In Alaska - Dancing With Ghosts (vinyl)

7 Days in Alaska has been working on their debut album 'Dancing With Ghosts' for almost four years. During this time, the band has released an EP and several singles to build fans, play concerts and get ready to truly establish 7 Days In Alaska as a touring live band.

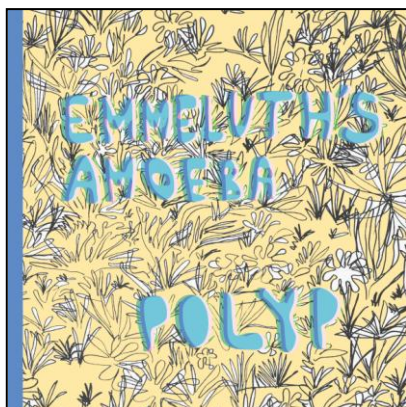

With a great soundtrack inspired by The 1975 and Thirty Seconds To Mars, the studio process has taken a long time and it has been a big investment for the band to make this happen. The band thinks outside the national borders and has already played more concerts in Germany and Norway. The recording of the record was also conducted across three countries: Norway, Ireland and the United States.

Emmeluth's Amoeba - Polyp (vinyl)

Polyp is the Danish-Norwegian quartet Emmeluth's Amoeba debut album. A unique album which moves beyond the expected and leaves the listener with music which is grippingly raw, quirky and frail. The quartet includes four of the strongest Nordic voices within improvisation and jazz. Their album contains a variety of free improvisations and compositions by Signe Emmeluth. Inspired by free jazz and classical music from the 20th century is the foundation of which Emmeluth's Amoeba moves upon into a polyphonic muddle. The title track POLYP is referring to the dancing movements of the naval plant and the feeling of lacking gravity associated with being under water which is a theme throughout the record.
